## NATIONAL SENIOR CERTIFICATE

MARKS: 150

## MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Full marks for correct answer. If answer incorrect, mark the workings provided.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. This memorandum is not for public distribution, as certain items might imply incorrect treatment. The adjustments made are due to nuances in certain questions.
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, the marker must inspect reasonableness of answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be $+,-, x, \div$, or per memo.
11. In calculations, do not award marks for workings if numerator \& denominator are swapped - this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a $\boxtimes$.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: $f=$ foreign item; $p=$ placement/presentation.

## These marking guidelines consist of 10 pages.

\subsection*{1.1.2 Comment on this practice and provide Amahle advice. <br> | COMMENT $\checkmark \checkmark$ | ADVICE $\checkmark$ |
| :---: | :---: | <br> part marks for incomplete / unclear / partial comment}

- Unethical to use money not earned by the business to pay running / operational costs
- The business is an agent of SARS and must make payments timeously
- The business can be fined (penalties) for non-compliance / evasion / manipulation / deferring of payment of VAT
- It could result in a more extensive investigation for irregularities in the future
- This is rolling over of cash / evasion; which could escalate to a serious problem.
- Keep proper records / ensure
that the funds are always available to make payments
- Note submission dates and plan in advance.
- Only use business funds to cover business commitments / work within the budget

1.2.2 What should the owner say to Bradley regarding this incident? Explain TWO points.

Any TWO valid explanations $\checkmark \checkmark \checkmark \checkmark$ part marks for incomplete / unclear / partial answers
Do not accept theft or firing / drawings as an explanation

- He should not take advantage of his position in management / abuse of authority / possible conflict of interest
- This can be viewed as wrong (i.e. unethical or devious)
- Against business policy i.e. all transactions must be authorised and documented / compromising internal controls
- He must pay back the money / he could open an account with the business and purchase the goods
- He could negotiate with the owner in advance to get a special price or at cost
- He could be liable for disciplinary action (warning) and could tarnish his good reputation
- Suspension / warning of dismissal / demotion will be considered (if caught again).

 point for purses for 2021. Quote figures.Compulsory response: Do not mark optional responses if marks are earned on compulsory response Comparison of BEP to level of production for $2021 \checkmark \checkmark$ Figures

Optional responses: Max two marks in total (mark one optional response only)
Comparison of BEP 2021 to 2020 with figures
OR: Comparison of Production 2021 to 2020 with figures
Expected responses for 4 marks:

- The business produced 600 units more than break-even / profit on 600 units / R24 000 extra profit
- BEP compared to production reflects a profit on 600 units in 2021 compared to a profit on 1100 units in 2020 / this is a decrease in profits on 500 units (1100-600) in 2021 compared to 2020
Expected response for $\mathbf{2}$ marks in total:
- Production increased by 2000 units (24000-22000) / to 24000 units / by $9 \%$ and/or BEP increased by 2500 units (23 400-20 900) / to 23400 / by 12\%

### 2.2.3 Apart from inflation and wage increases, provide TWO other possible reasons for the increase in the direct labour cost per unit for purses.

TWO valid reasons $\checkmark \checkmark \quad \checkmark \checkmark$ Explanations not needed

- Overtime paid at higher rates endorsed or approved / bonus for good performance or extra time / negotiate higher fringe benefits / targets not met during normal time / overtime was needed to meet targets
- Low productivity of workers (not productive or efficient)
- Interruptions (due to malfunctioning machines / load-shedding / COVID-19 lockdown
- Higher qualifications of workers / employed higher-skilled workers
- Poorly trained workers / lack of supervision / time wasted in re-doing work.

Do not accept: Employ more workers (their inefficiency is the problem) / increase in demand

2.2.4 Give TWO reasons for the decrease in the direct material cost per unit for purses.
Any TWO valid reasons $\checkmark$

- Cheaper (new) or local suppliers used
- Took advantage of bulk discounts / negotiated discounts
- Better supervision / less wastage / better control over issuing / use of material
- Better cutting methods / use patterns or technology / better skilled workers / better training of workers
- Cheaper transport costs / petrol costs / using own transport

## JACKETS:

### 2.2.5 Explain why the direct material cost per unit for jackets would

 probably increase if raw material is imported. State TWO points.TWO valid points $\checkmark \quad \checkmark$

- Additional / increase in transport costs e.g. freight, shipping
- High quality material not available locally
- Custom duties / import duties / taxes
- Better packaging
- Different / weak exchange rate

## Provide figures to prove that Tello was correct about the effect this

 decision would have on the cost of the jackets.Direct material cost per unit increased (from R180) to R360 / by 100\% / by R180 / it doubled. (Note: could mention effect on total Variable Cost).
2.2.6 Calculate the \% increase in the selling price of the jackets.

| Workings | Answer |
| :---: | :---: |
| $1170-780$ | 50\% |

| $780 \checkmark 1$ | must be expressed as percent |
| $\times 100$ is not 'one part correct' for the method mark | difference in SP must be numerator |

2.2.7 $\quad$ Explain the impact of the increase in the selling price of jackets on the sales and profit. Quote figures or calculations.
ONE reason $\checkmark \checkmark$ part marks for incomplete / unclear / partial answers figures $\checkmark \checkmark$

- Units produced and sold decreased by 2719 units / (from 6 350) to 3631 / by $42,8 \%$.
- The BEP dropped by 1250 units / from 5000 to 3750 / by $25 \%$
- Made loss on 119 units in 2021 and profit on 1350 units in 2020 / sales dropped from R4 953000 to R4 248270 / by R704 730 / by 14,2\%
For candidates who pick up the reversed figures in BEP/Production:
- OR 1250 units less / from $5000-3750$ / by $25 \%$
- OR 2719 units less / from $6350-3631$ / by 42,8\%
- OR Made a loss on 1350 units in 2020 and a profit on 119 units in 2020 / sales increased from R3 900000 to R4 387500 / by R487500 / by 12,5\%

2.2.8 Tello wants to increase profits on jackets by an additional R250 000 in the next financial year. Assuming the cost structure remains the same, calculate the total number of additional units he must produce to achieve this target.

Expected response for 4 marks:

- Advertising budget increased by R18 000 / (from R12 000) to R30 000 / by $150 \%$.
- Actual expenditure on Advertising exceeded the budget by R12 000 / from R30 000 to R42 000 / by $40 \%$

The directors ask you for a report on the effect that the advertising decisions have actually had on customers and sales in May 2021.
Provide TWO points that you would include in your report. Quote figures or calculations.
Explanation on customers $\checkmark$ Figures $\checkmark \quad$ Explanation on sales $\checkmark$ Figures $\checkmark$
Expected responses for 4 marks:

- Customers: The actual was 135 / 25 more (than the 110 expected) / 22,7\% more / the business projected an increase of 20 customers / budget for $22,2 \%$ increase in customers, but actual increase (April to May) is 50\%
- Sales: The actual sales were less than budget by R80 000 (from R770 000) to R690 000 by 10,4\%.
Explain how the decline in the national economy has affected the average amount that customers spent in May 2021. Quote figures.
ONE explanation $\checkmark$ with figures $\checkmark \checkmark$

## Expected response for three marks:

- The average sales were budgeted at R7 000 per customer but this actually dropped to R5 111 per customer ( $690000 / 135$ )
- It appears that the increase in advertising has attracted many new customers (25) who do not have the same spending power as the company's traditional customers / sales per customer decreased (they spend R5 111 instead of R7 000 each)
- More customers are repairing dresses rather than buying new ones. Fee income exceeded budget by R6 000 (R21 000 - R15 000) / 40\%. Sales of new dresses were R80 000 less than the budget (10,4\%).

## Expected responses for one mark:

Customers might be window-shopping / spending less / more buying on credit
Comment on whether the consumable stores have been well controlled or not. Quote figures or calculations.
Response for two marks: Comment which shows that consumable stores used were well controlled and are compared to fee income, with any valid figures provided.
Response for one mark: Comment which shows that consumable stores were overspent without being compared to fee income, with any valid figures provided.
Response for no mark: Comment which shows that consumable stores were overspent without being compared to fee income, with no figures provided.
Expected response for full marks: Mark comment \& figures independently

- Consumable stores were budgeted at $28 \%$ (R4 $200 \div$ R15 000) of fee income, while actual amount spent was $26 \%$ of actual fee income (R5 $520 \div$ R21 000).
- Consumable stores exceeded the budget by $31,4 \%$ / by R1 320 (R5 520 - R4 200) while fee income exceeded the budget by $40 \%$ / by R6 000 (R21 000 - R15 000)
