COMMON TEST
SEPTEMBER 2022

Stanmorephysics.com

MARKS: 75

TIME: 1 ½ hour

This question paper consists of 9 pages.

INSTRUCTIONS AND INFORMATION

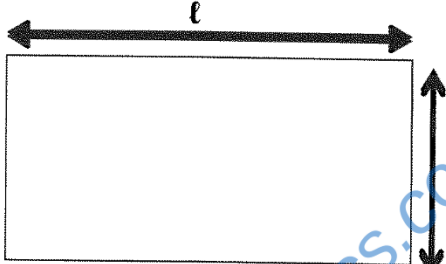

1. This question paper consists of FOUR questions. Answer ALL the questions.
2. Number the answers correctly according to the numbering system used in this question paper.
3. Start EACH question on a NEW page.
4. You may use an approved calculator (non-programmable and non-graphical), unless stated otherwise.
5. Show ALL calculations clearly.
6. Round off ALL the final answers to TWO decimal places, unless stated otherwise.
7. Indicate units of measurement, where applicable.
8. Maps and diagrams are NOT necessarily drawn to scale, unless stated otherwise.
9. Write neatly and legibly.

downloaded from stanmorephysics.com

QUESTION 1

1.1

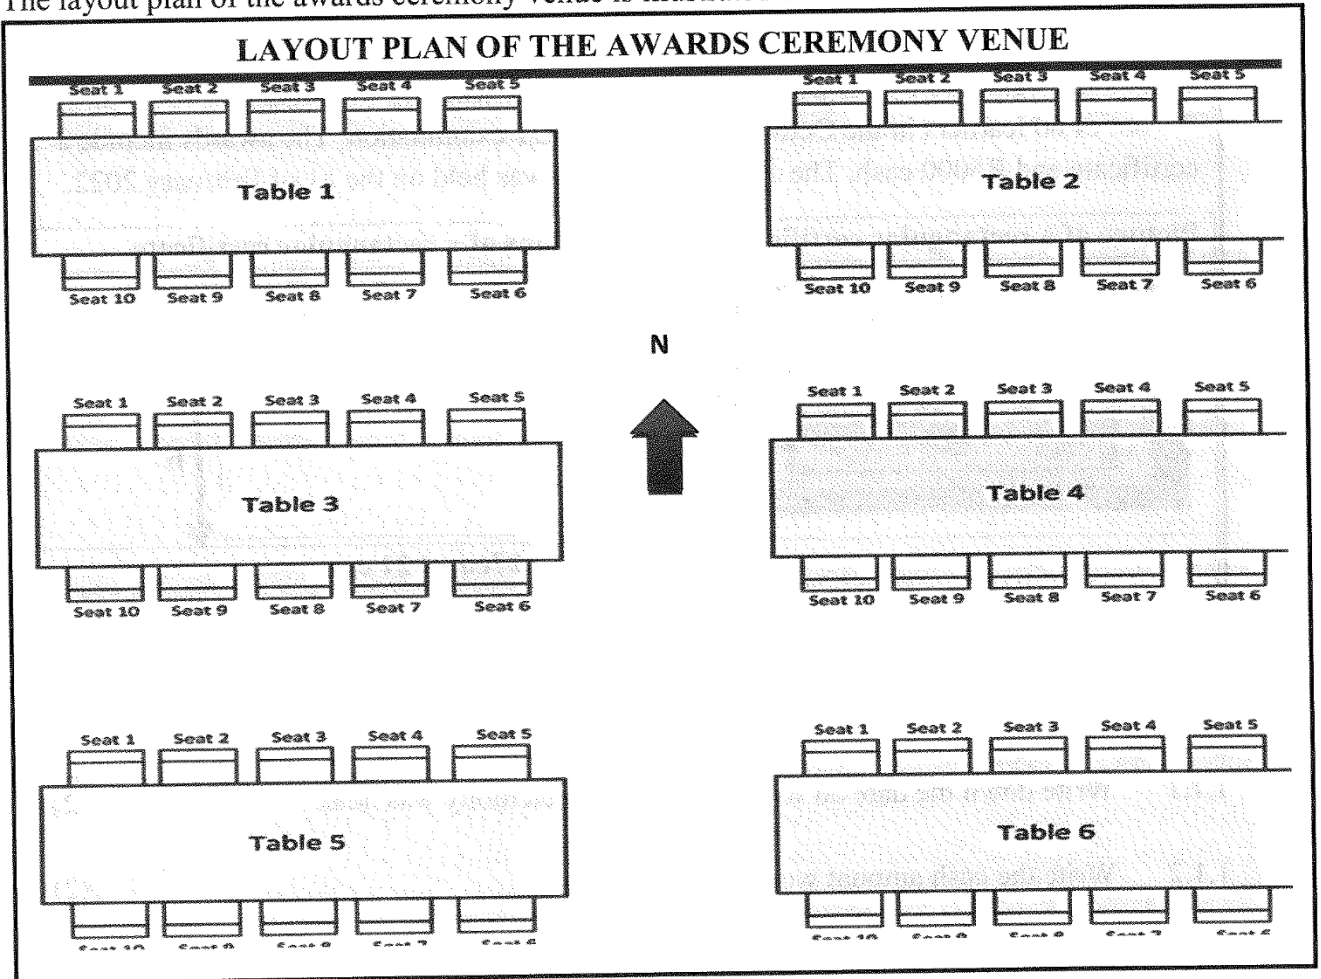

A Mathematical Literacy educator attended the Matric Top teacher's Achievers Awards Ceremony organized by her District. She is one of the teachers who obtained 100% and 4 Level 7's out of 60 learners in the October/November 2021 examination. The awards include a certificate and R5000 cash. The awards ceremony was held on the 11 of February 2022.

Picture of a rectangular certificate	Dimensions of a rectangular certificate
	
	27cm × 21 cm

Use diagram and the information above to answer the questions that follow.

- 1.1.1 Write down the date on which the awards ceremony was held. (2)
- 1.1.2 Write the cash amount won in words. (2)
- 1.1.3 Determine the length of the certificate. (2)
- 1.1.4 What is the probability of the awards ceremony attended on the 10th of February 2022? (2)

1.2 The layout plan of the awards ceremony venue is illustrated below

1.2.1 Define the term “*layout plan*” in the given context. (2)

1.2.2 Write down the number of people who attended the awards ceremony if all seats were occupied. (2)

1.2.3 State the general direction of table 6 from table 3. (2)

1.2.4 Measure the length of table 1 in cm. (2)

[16]

QUESTION 2

2.

Mr Avern received a bank statement from ABC bank. TABLE 1 below shows the part of the statement from 1 May 2022 to 28 May 2022.

NOTE: 1 May 2022 was a public holiday.

TABLE 1: Mr Avern's Bank Statement

Mr Avern 27 Stanger Rd Stanger		Period : 1 May 2022 to 28 May 2022 Account Number : 443112****	
Date	Details	Transaction	Balance
01/05/22	Opening balance		-R2 500
01/05/22	Interest	R20,00	-R2 520
04/05/22	Deposit (EFT)	A	R13 000
05/05/22	POS Purchase	R370,30	B
14/05/22	Cash Withdrawal	R5 560	R7 069,70
28/05/22	Closing balance		

*POS – point of sale

Use TABLE 1 and the information above to answer the questions that follow.

2.1 Define the term “*opening balance*” in the given context. (2)

2.2 Determine the value of A and B. (4)

2.3 State with reason why some of the digits in the account number are not shown. (2)

2.4 Mr Avern withdrew R5 560 on the 14/05/22 from the other bank ATM.

Determine the bank charges for his transaction.

You may use the formula:

Bank transaction fee = R2,00 + R1,20 per R100 (or part thereof) (3)

2.5

Mr Avern decides on using EFT for any transactions, TABLE 2 below shows the transaction fees that will be applicable.

TABLE 2: EFT transactional fee

Amount (R)	R500	R1000	...	D	R3200
Transaction Fee	R8,00	C	...	R32	R32

***Minimum transaction fee is R6.20**

***Maximum transaction fee is R32.00**

Use the information above to answer the questions that follow.

Calculate the following values from TABLE 2 above.

You may use the following formula:

EFT transaction fee = R2 + R1,20 per R100 (or part thereof)

2.5.1 C (2)

2.5.2 D (3)

2.5.3 Explain the meaning of "*part thereof*" in the above formula. (2)

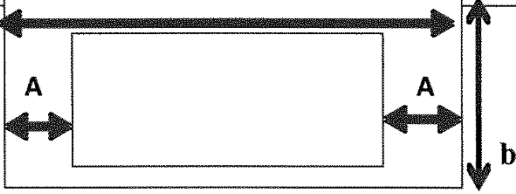

2.5.4 Give a reason why you think there is a maximum transaction fee used by the banks. (2)

[20]

QUESTION 3

3.1

The district likes the frame of the certificate to be painted in black and the front to be covered with a glass as shown in the picture below.

Picture of a rectangular certificate with frame	Dimensions of a rectangular certificate with frame
	
	<p style="text-align: center;">Outer frame = 27cm × 21 cm Inner frame = 25cm × 18 cm</p>

Use the information above to answer the questions that follow.

3.1.1 Calculate the value of **A**, the width of the frame of the certificate, in centimeters. (4)

3.1.2 Determine the total length around the frame in centimeters.

You may use the formula:

$$\text{Perimeter of a rectangle} = 2(\ell + b), \text{ where } \ell = \text{length and } b = \text{breadth} \quad (2)$$

3.1.3 The area of the inside section of the certificate is 450 cm^2 ; hence calculate the area of the wooden frame section in square centimeters.

You may use the formula:

$$\text{Area of the wooden frame} = \text{Area of the whole certificate} - \text{Area of the inside section}. \quad (3)$$

3.1.4 Ramound, the certificate designer, says it will take him 5 hours to design 60 certificates if it takes him 5 minutes to design 1 certificate.

Verify, showing all calculations, whether the statement is correct. (4)

3.1.5 Give ONE reason why a glass cover is put in front of the certificates. (2)

3.2

A bank consultant advises the educator to deposit the R5000, 00 she received from the awards in a fixed deposit at an interest rate of 5,5% per annum simple interest.

- a) Write the interest rate per annum as a decimal. (2)
- b) Calculate the interest that the educator will receive after 3 years. (3)

3.3

The certificates will be packed in a box as shown in the picture below (top view). Five certificates can be stacked on top of each other. The dimensions of the box that the certificates are to be packed into is 100 cm by 100 cm.

Picture of a rectangular box that the certificates will be packed into:

Use information above to answer the questions that follow.

- 3.3.1 Calculate the number of certificates that will fit in ONE box. (5)
- 3.3.2 Give one reason why it is advisable to leave a space between the certificates and the sides of the box when packing. (2)

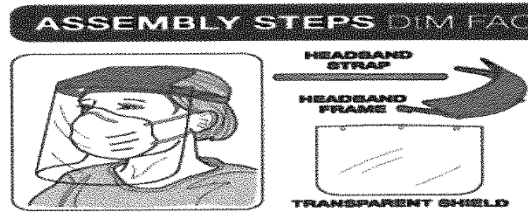

[27]

QUESTION 4

4.

Sinethezekile High school Mathematical Literacy educator prepared an activity for her Grade 10 learners on assembling the Face Shield.

PICTURE OF A COMPLETELY ASSEMBLED FACE SHIELD

[Source: www.av8tor.co.za]

Use information above to answer the questions that follow.

4.1 Assist the learners by writing the **assembling steps** (1 to 5) represented by each picture.

1.	A hand is shown attaching a strap to a frame. A small circle with the number "1" is next to it.
2.	A hand is shown attaching a rectangular shield to a frame.
3.	A hand is shown adjusting a strap on a headband.
4.	A hand is shown attaching a strap to a frame.
5.	A hand is shown attaching a strap to a frame. The word "SURGICAL TAPE" is written below the illustration.

(10)

4.2 Give one valid reason why are the assembling instructions given in both pictures and word form?

(2)
[12]

MARKING GUIDELINE

MARKS: 75

SYMBOL	EXPLANATION
M	Method
MA	Method with accuracy
CA	Consistent accuracy
A	Accuracy(Answer)
C	Conversion
S	Simplification
RT/RG/RD	Reading from a table/ graph/ diagram
NPR	No penalty for units/rounding
SF	Correct substitution in a formula
O	Opinion/ reason/deduction/example
J	Justification
R	Rounding off/
F	deriving a formula
E	Explanation
U	Units
AO	Answer only full marks

This Marking guideline consists of 4 pages.

	QUESTION 1 [16 MARKS]	ACCEPT AO	
QUE	SOLUTION	EXPLANATION	TL
1.1.1	11 February 2022 ✓✓ A	2A, Answer Accept 11 February	L1 F
		(2)	
1.1.2	Five thousand rands ✓✓ A	2A, Answer	L1
		(2)	F
1.1.3	27 cm ✓✓ A	2A, Answer	L1
		(2)	M
1.1.4	0 ✓✓ A	2A, Answer Accept zero	L1
		(2)	P
1.2.1	Layout plan is the plan showing the seating arrangement of the award venue in relation to one another. ✓✓ A	2 A, Answer 1 out of 2 for general definition.	L1 MP
		(2)	
1.2.2	60 people ✓✓ A	2A, Answer	L1
		(2)	MP
1.2.3	South East / SE ✓✓ A	2A, Answer	LI
		(2)	MP
1.2.4	6.8cm ✓✓ A	2A, Answer Accept leeway of 0,2	L1
		(2)	M
		[16]	

QUE	QUESTION 2 [20 MARKS]	EXPLANATION	TL
2.1	Balance reflected at the beginning of the bank statement of Mr Avern. ✓✓ A	2A, Answer 1 out of 2 for general definition.	L1 F
		(2)	
2.2	A = R2 520 + R13 000 ✓ MA A = R15 520 ✓ A B = R13 000 – R370,30 ✓ MA B = R12 629,70 ✓ A	1MA, adding correct values 1A, answer 1MA, subtracting correct values 1A, answer	L2 F
		(4)	
2.3	For security reasons ✓✓ E OR Any valid reason	2E, correct explanation	L4
		(2)	F
2.4	R5 560 = R6000 (part thereof) ✓ M Bank Fees = R2,00 + R1,20 × $(\frac{6000}{100})$ ✓ SF = R74 ✓ A	1M, representing R5 560 as R6000 1SF, correct substitution 1A, answer	L3 F
		(3)	
2.5.1	C = R2 + 1,20 × $(\frac{1000}{100})$ ✓ SF = R14 ✓ A	1SF, substituting correct values 1A, answer	L2 F
		(2)	

2.5.2	\sqrt{RT} $R32 = R2 + 1,20 \times \left(\frac{D}{100}\right) \sqrt{SF}$ $D = R2\ 500 \sqrt{A}$	1RT, reading correct value 1SF, substituting correct values 1A, answer (3)	L2 F
2.5.3	Part thereof means anything that is not R100 will be taken as R100. $\sqrt{\sqrt{E}}$ OR Any valid reason	2E, explanation of part thereof (2)	L1 F
2.5.4	To avoid charging people more money for transactions $\sqrt{\sqrt{A}}$ OR Any valid reason	2A, Answer (2)	L4 F
[20]			

QUESTION 3 [27 MARKS]			
QUE	SOLUTION	EXPLANATION	TL
3.1.1	\sqrt{RT} $2A = 27\text{cm} - 25\text{cm} \sqrt{MA}$ $2A = 2\text{cm} \sqrt{S}$ $A = 1\text{cm} \sqrt{A}$	 1RT, correct values of length 1MA, subtracting correct values 1S, Simplification 1A, Answer (4)	L3 M
3.1.2	$P = 2 (27\text{cm} + 21\text{cm}) \sqrt{SF}$ $= 96\text{cm} \sqrt{A}$	1SF, correct substitution 1A, Answer (2)	L2 M
3.1.3	Area of the certificate = $27\text{cm} \times 21\text{cm}$ $= 567\text{cm}^2 \sqrt{A}$ Area of the wooden frame = $567\text{cm}^2 - 450\text{cm}^2 \sqrt{MA}$ $= 117\text{cm}^2 \sqrt{A}$	1A, area of the certificate 1MA, subtracting area 1A, Answer (3)	L3 M
3.1.4	Duration to design 60 certificates = $5 \times 60 \sqrt{M}$ $= 300\text{ minutes} \sqrt{A}$ Duration in hours = $\frac{300}{60}$ $= 5\text{ hours} \sqrt{C}$ The statement is incorrect \sqrt{O}	1M, multiplying correct values 1A, Answer in minutes 1C, converting minutes to hours 1O, conclusion (4)	L3 M
3.1.5	For protection $\sqrt{\sqrt{E}}$ OR Durability. $\sqrt{\sqrt{E}}$ OR Beautify $\sqrt{\sqrt{E}}$ OR Any valid reason	2E, Explanation (2)	L4 M
3.2 a)	$0,055 \sqrt{\sqrt{A}}$	2A, Answer (2) NPR Accept 0,06	L2 F
b)	Interest for 1 year = $\frac{5,5}{100} \times R5000$ $= R275 \sqrt{A}$ Interest for 3 years = $R275 \times 3 \sqrt{M}$ $= R825 \sqrt{A}$	1A, interest of 1 year 1M, multiplying interest by 3 1A, Answer (3)	L3 F

3.3.1	<p>No of certificates along length = $\frac{100cm}{27cm} \checkmark M$ $= 3 \checkmark R$</p> <p>No of certificates along width = $\frac{100cm}{21cm}$ $= 4 \checkmark R$</p> <p>Total to fit in ONE box = $3 \times 4 \times 5 \checkmark MA$ $= 60 \text{ certificates} \checkmark A$</p>	<p>1M, dividing 100cm by 27 cm</p> <p>1R, Rounding length</p> <p>1R, Rounding width</p> <p>1MA, multiplying correct values 1A, Answer (5)</p>	L3 MP
3.3.2	<p>To avoid the certificates from breaking if the box falls. $\checkmark \checkmark E$ OR</p> <p>Any valid reason</p>	<p>2E, Explanation (2)</p>	L4 M
[27]			

QUESTION 3 [12 MARKS]			
QUE	SOLUTION	EXPLANATION	TL
4.1	<p>Step 1 = Wash hands / Apply hand sanitizer. $\checkmark \checkmark E$ Step 2 = Wear a new pair of gloves. $\checkmark \checkmark E$ Step 3 = Press the holes of the shield onto the pegs of the headband frame. $\checkmark \checkmark E$ Step 4 = Hold assembly with transparent shield facing down. $\checkmark \checkmark E$ Step 5 = Place a strip of microfilm surgical tape on the inside edge. $\checkmark \checkmark E$</p> 	<p>2E, correct explanation step 1 2E, correct explanation step 2 2E, correct explanation step 3 2E, correct explanation step 4 2E, correct explanation step 5</p> <p style="text-align: right;">(10)</p>	L3 MP
4.2	<p>To make it easier for a person who might not read to see via the picture how to assembly $\checkmark \checkmark E$ OR</p> <p>Any valid reason</p>	<p>2E, correct explanation</p> <p style="text-align: right;">(2)</p>	L4 MP
