1.3. Refer to the map below on the south-western Cape core industrial region and the West coast Spatial Development Initiative (SDI).

Where: The initiative is centred on the region around Saldanha on the Cape west coast.

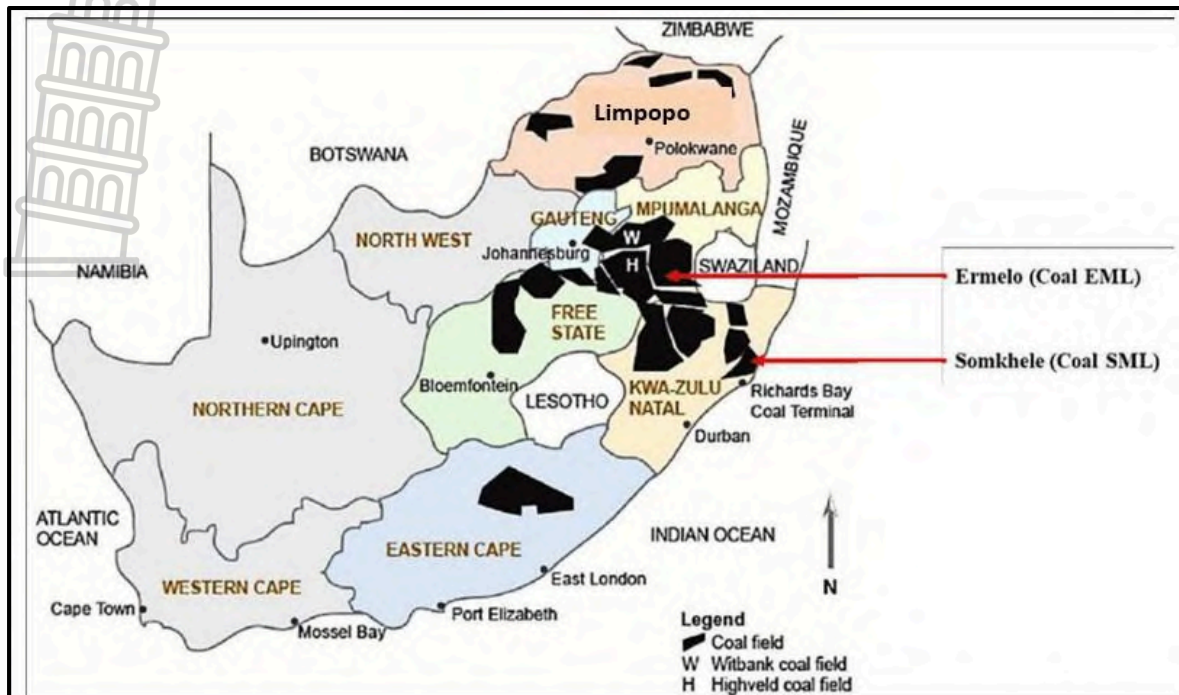

What: West coast spatial development initiative has projects in mining and mineral beneficiation, fishing, agriculture, tourism and infrastructure-valued at around R20-billion. The 120 projects that are ready for investment are expected to create some 20 000 jobs.

South-western cape contributes about 15% to the south African manufacturing sector output. Although the province's agro-processing sector has shown resilience(strength) during tough economic times (covid-19 period), the core industrial region's real economy is dominated by manufacturing and commercial agriculture. The manufacturing sector in the south-western cape core industrial region is supported by multi-national corporations who have chosen the region to take advantage of the economic opportunities of the local economy as well as those in the rest of Africa. The region has attracted major investments from various corporations.

In recognition of the importance of supporting the manufacturing sector, the south African government has established various incentives for manufacturing investors.
