MARKING PRINCIPLES:

- 1. Unless otherwise indicated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
- Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
- 3. Full marks for correct answer. If answer incorrect, mark the workings provided.
- 4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: If figures are stipulated in marking guidelines for components of workings, these do not carry the method mark for final answer as well.
- 5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or sign or bracket is provided, assume that the figure is positive.
- 6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers.
- 7. These marking guidelines are not for public distribution, as certain items might imply incorrect treatment. The adjustments made are due to nuances in certain questions.
- 8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
- 9. Where method marks are awarded for operation, the marker must inspect the reasonableness of the answer.
- 10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: Check operation must be +, -, x, ÷, or per marking guidelines.
- In calculations, do not award marks for workings if numerator and denominator are swapped this also applies to ratios.
- In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part.
 Indicate with a ☒.
- Be aware of candidates who provide valid alternatives beyond the marking guidelines. Note that one comment could contain different aspects.
- 14. Codes: f = foreign item; p = placement/presentation.

These marking guidelines consist of 11 pages.

4.3.2 The owner decided that he would not pay over the money collected as PAYE from this month as he needed the cash and would make a double payment in the following month. Advise Mr Davids against this decision by indicating the consequences of this action.

This is unethical /illegal as the money belongs to SARS and should be paid over timeously. 🗸

Consequence:

Late payment penalty/levy will be imposed by SARS ✓✓
