## SECTION A: COMPREHENSION

### QUESTION 1

Read BOTH TEXT A and TEXT B and answer the set questions.

#### TEXT A

#### EMBRACING ARTIFICIAL INTELLIGENCE

- 1 The words artificial intelligence (AI) seem to be on the tip of everyone's tongue lately. Artificial intelligence is one of the most important technologies in the world today. It has become part of our lives and it affects everything we do. Apart from the science fiction fantasies and images of robots taking over the world, what could be the reason for all the excitement surrounding AI? 5
- 2 AI is a field of computer science that allows machines to imitate human thought processes and decision-making abilities. There are different types of AI and the most common form is called 'machine learning'. Machine learning involves training a computer program on a large amount of data so it can learn to identify patterns and make predictions based on that data. AI is also used in industries to help automate<sup>1</sup> tasks and improve efficiency. 10
- 3 Through the use of AI, individuals and groups enjoy a more personalised experience in various technological solutions. AI is used in a wide range of applications ranging from dating sites to online shopping. In Africa, it helps with solving important issues including access to healthcare, financial services and education. Overall, AI has the potential to revolutionise the way we live and work. 15
- 4 The impact of AI on businesses is resulting in a shift in the type of skills needed to drive economic transformation. In the past four years, the use of AI across businesses has grown by 270 per cent. However, regardless of the widespread anxiety about automation and machines displacing workers, AI is far from causing large-scale unemployment. It helps to simplify boring tasks and make workers more efficient. Besides making the workday less monotonous by removing all the redundant tasks, AI has lowered the entry-level to some jobs, especially for people who had limited access to education. 20 25
- 5 As the world becomes increasingly technology-driven, it is exciting to see how AI transforms the way we work and create websites. With user-friendly tools and platforms, like WIX, it is now easier than ever to design and create professional-looking websites, even for people who do not have a background in design. WIX, for example, offers a versatile platform that caters to users of all skill levels. Whether you are starting from scratch or working with templates, its artificial design intelligence (ADI) takes website design to the next level. You simply provide the ADI platform with basic information about your website needs and design preferences. ADI then creates a professional-looking website for you within minutes. 30 35

6	A popular AI tool that is commonly used is ChatGPT. This is a natural language processing model that allows you to have human-like 'conversations' with a chatbot <sup>2</sup> . ChatGPT can answer questions and assist with tasks like composing e-mails, writing essays and coding. It is popular among writers and people who work in advertising.	40
7	AI is increasingly influencing our lives in many different ways, for example health, fashion and beauty. The TikTok <sup>3</sup> bold glamour filter is a video beauty filter that makes the user look more attractive. This filter is blurring the boundaries between what is real and what is not through the use of AI technology. Unlike past social media filters, bold glamour does not malfunction when the face moves in a video. It uses a database of other faces to create a new airbrushed-looking face. The filter has received over 400 million views since its initial release.	45
8	While AI is a powerful tool that can help us work faster and more efficiently, it is important to remember that it cannot replace human touch and creativity. It is also worth noting that AI cannot be used to cheat the system and should not be used to cut corners. Instead, it should be used to improve existing systems, to make them more efficient and effective. Despite its limitations, AI is here to stay and it can help us keep up with the changes in technology. By embracing its potential and using it wisely, humans can reap the benefits and work in ways they never previously thought possible.	50 55

**TOTAL SECTION A: 30**

## SECTION B: SUMMARY

### QUESTION 2

Many people do not have time to exercise due to a busy lifestyle. However, people can ensure they are physically active while doing everyday activities.

Read the passage (TEXT C) below and list SEVEN points on **how to be more active while doing everyday activities**.

### INSTRUCTIONS

1. Your summary must be written in point form.
2. List your SEVEN points in full sentences, using no more than 70 words.
3. Number your sentences from 1 to 7.
4. Write only ONE point per sentence.
5. Use your OWN words as far as possible.
6. Indicate the total number of words you have used in brackets at the end of your summary.

### TEXT C

#### HOW TO GET ACTIVE

Being physically active is important for one's well-being. Keeping active does not have to be strenuous or time-consuming.

Regular walking can make a big difference to your overall health. A twenty-minute walk with your dog will not only make your pet happy, but it will also get your heart pumping.

Take every opportunity to move your feet and you will be surprised at how much more active you will be. It is as easy as pacing while you talk on your cellphone. If walking is not an option, consider cycling. When you cycle to work or school, it is not only good for your health, but also for the environment.

Make it a rule to always take the stairs instead of the escalator or lift. You do not have to climb twenty floors – even one or two floors will have you feeling stronger than before.

Jogging is another effective way of keeping physically active. You can choose to jog alone or in a group.

Housework is good exercise as well. You can get a real workout by mopping floors, cleaning windows and handwashing clothes.

Rethink the way you work. Instead of slumping in your office chair every day, remember to get up and stretch and take a few steps every half an hour.

Have a dance party. You can set one up in your home. Just dim the lights, play your favourite music and have fun. Dancing is a fantastic workout as it gets you moving.

Every bit counts!

**QUESTION 3: ANALYSING AN ADVERTISEMENT**

Study the advertisement (TEXT D) below and answer the set questions.

**TEXT D**

The advertisement for Sinutab features a large, stylized title "Sinutab<sup>®</sup>" at the top. Below it, the text "Free yourself from a blocked nose" is written in a large, bold, sans-serif font. In the center, there is a product shot of a Sinutab nasal spray bottle and its packaging box. The box is white with black and blue text, including "Sinutab<sup>®</sup> Nasal spray" and "Blocked Nose". A circular graphic on the right side of the product shot contains the text "Starts to work in 2 Minutes" and "Lasts for up to 10 hours<sup>2</sup>". The background of the advertisement is a light gray gradient.

[Source: Clicks ClubCard Magazine, September 2023]

- A recorded
  - B renewing
  - C registered
  - D recovering
- (1)

3.2 Refer to the headline.

3.2.1 To which need does the advertiser appeal? (1)

3.2.2 Explain the advertiser's intention in using the word, 'yourself'. (2)

3.3 Why has the advertiser included the visual of the bottle and the box?  
Give TWO points. (2)

3.4 Quote TWO consecutive words from the text that indicate that this is not an oral treatment. (1)

3.5 Provide a synonym for the underlined word in the following sentence:

For a blocked nose caused by colds, use Sinutab. (1)

3.6 Does the visual of the curved arrow support the message of the advertisement? Substantiate your answer. (2)

**MARKING GUIDELINES**

**MARKS: 80**

**These marking guidelines consist of 9 pages.**

## INSTRUCTIONS TO MARKERS

1. Candidates are required to answer ALL the questions.
2. This marking guideline serves as a guide to markers. Some responses may require a marker's discretion, while others may be expanded at the national marking guideline discussion.
3. Candidates' responses should be assessed as objectively as possible.

## MARKING THE COMPREHENSION

- Because the focus is on understanding, incorrect spelling and language errors in responses should not be penalised unless such errors change the meaning/understanding. (Errors must still be indicated.)
- If a candidate uses words from a language other than the one being examined, disregard those words, and if the answer still makes sense, do not penalise. However, if a word from another language is used in a text and required in an answer, this will be acceptable.
- For **open-ended questions**, no marks should be awarded for YES/NO or I AGREE/I DISAGREE. The reason/substantiation/motivation is what should be considered.
- When one-word answers are required and the candidate gives a whole sentence, mark correct **provided that** the correct word is underlined/ highlighted.
- When two/three facts/points are required and a range is given, mark **only** the first two/three.
- Accept dialectal variations.
- For multiple-choice questions, accept BOTH the letter corresponding with the correct answer AND/OR the answer written out in full.

## MARKING THE SUMMARY

Marking is on the basis of the inclusion of valid material and the exclusion of invalid material.

The summary should be marked as follows:

- **Mark allocation:**
  - 7 marks for 7 points (1 mark per main point)
  - 3 marks for language
  - Total marks: 10
- **Distribution of language marks when a candidate has not quoted verbatim:**
  - 1–3 points correct: award 1 mark
  - 4–5 points correct: award 2 marks
  - 6–7 points correct: award 3 marks
- **Distribution of language marks when a candidate has quoted verbatim:**
  - 6–7 quotes: award no language mark
  - 4–5 quotes: award a maximum of 1 language mark
  - 2–3 quotes: award a maximum of 2 language marks

### NOTE:

- **Word count:**
  - Markers are required to verify the number of words used.
  - Do not deduct any marks if the candidate fails to indicate the number of words used, or if the number of words used is indicated incorrectly.
  - If the word limit is exceeded, read up to the last sentence above the stipulated upper limit and ignore the rest of the summary.

**TOTAL SECTION B: 10**

## SECTION C: LANGUAGE

- **Spelling:**
  - One-word answers must be marked correct even if the spelling is incorrect, unless the error changes the meaning of the word.
  - In full-sentence answers, incorrect spelling should be penalised if the error is in the language structure being tested.
- Sentence structures must be grammatically correct and given in full sentences/ as per instructions.
- For multiple-choice questions, accept BOTH the letter corresponding with the correct answer AND/OR the answer written out in full as correct.
- Where an abbreviation is tested, the answer must be punctuated correctly.

### QUESTION 3: ANALYSING AN ADVERTISEMENT
